CAREER OBJECTIVE

Motivated Computer Science and Engineering student seeking an entry-level Java Developer role. Strong foundation in Java, Spring Boot, REST APIs, databases, and problem-solving, with practical internship experience in Java Full Stack Development. Eager to contribute to real-world software projects while continuously improving technical expertise.

TECHNICAL SKILLS

Languages: Java, Python
Frontend: HTML5, CSS3
Backend: Spring Boot, REST API
Databases: MySQL, MongoDB
Tools: Git, GitHub, Linux (Basics), Postman
Core Concepts: Object-Oriented Programming, Database Management Systems

PROJECTS

Face Recognition Attendance System

- Developed an attendance management system using face recognition for automated student identification and attendance recording.
- Implemented database functionality for maintaining and managing student attendance records efficiently.

Hospital Appointment & Patient Management System

- Developed a system to manage patient information, doctor details, and hospital appointment scheduling.
- Designed modules for maintaining patient records and simplifying appointment management.
