PROFESSIONAL SUMMARY

B.Tech AI & DS student with a CGPA of 8.6 passionate about building intelligent and scalable web applications.AWS Certified Developer proficient in Java, Python, FastAPI and full stack technologies. Hands- on experience in developing AI-Powered and IoT-based solutions. Strong problem solving skills and backend development enthusiasm for learning new technologies and solving real world problems.

SKILLS

- Programming Languages :** Java, Python
- Frontend :** HTML, CSS, React.js
- Backend :** Node.js,Express.js, FastAPI
- Database :** MongoDB, SQL
- Tools & Technologies :** Git, Postman, VS Code
- Core Skills :** Data Structures, OOps,DBMS, REST APIs, HackerRank Practice
- Soft Skills :** Communication, Teamwork, Leadership, Adaptability

EDUCATION

- B.Tech - Artificial Intelligence and DataScience**
- Excel Engineering College
(Autonomous), Anna University
2023 - 2027 | CGPA : 8.6 (Up to 5th Sem)
- Higher Secondary Certificates (HSC)**
- Sri Vidhya Bhavan Matriculation Higher Secondary School,Madurai, TamilNadu

LANGUAGES

- English (Proficient)
- Tamil (Native)

ACHIEVEMENTS

- Vibeathon - Polaris, Bangalore.
- International Hackathon - KPR institute of Technology, Coimbatore
- NIT Trichy - Festember Guest Lecture
- Hackathon - Karpagam institute of technology, Coimbatore

CERTIFICATIONS

- AWS Certified Developer Associate** - Amazon Web Services | Score: 863 | Issued:2026-www.credly.com/badges/b176a501a8c44a5cb389cd99c7796628
- Udemy** - Complete Web Application Course
- NPTEL** - Industrial IoT 4.0
- Python Programming Certification** - Nila Institute of Technology (onsite)
- AWS** - Cloud Practitioner Essentials (basic)
- IBM** - Fundamentals of Web Development
- CodeSignal** - FastAPI Essentials(On-going)

PROJECTS & PRACTICAL EXPERIENCE

PLACEMENT CELL MANAGEMENT SYSTEM - EXCEL ENGINEERING COLLEGE (ONGOING)

- FrontendDeveloper | TeamProject
- Developing a student management system to streamline placement data handling
 - Implemented features to fetch and filter students data in real time.
 - TechStack: React.js, Node.js, Express.js, MongoDB

AI EXPENSE TRACKER (MINI PROJECT)

- Developed an AI-based expense tracking system using MernStack and FastAPI.
- Detects anomalies using ML/NLP Logic and provides budget plan and AI Insights and AI Chatbot to help in maintaining the expenses.

ROADRESQ - AI BASED SMART ROAD EMERGENCY ASSISTANCE AND ACCIDENT DETECTION SYSTEM (MINI PROJECT)

- Developed a system to assist travelers during road emergencies by auto fetching their location and Provides emergency sos button to seek immediate help and Accident Detection system helps to detects accident and informs to the nearby hospitals automatically.
- TechStack: React.js, Node.js, Express.js, MongoDB, FastAPI, GeoLocation

INTERNSHIP EXPERIENCE

IoT INTERN - TechVolt Software Pvt Ltd, Coimbatore

- Worked with IoT devices,Sensors and Microcontrollers to build real time systems and Gained Hands-on Experience in IoT hardware integration

FULLSTACK DEVELOPMENT SearchNScore PvtLtd,Coimbatore

- Worked with RESTful APIs using Node.js and Express.js and Gained knowledge about the realtime connection of frontend and backend and the complete lifecycle of web development.

AI-ML INTERN - Inzovate Technologies Pvt.Ltd, Perundurai

- Worked on AI/ML applications involving model development, and evaluation using Python and Gained hands-on experience with data analysis, and AI development workflows.
