SUMMARY

Curiosity drives the way I learn and build. Passionate about web development, I enjoy creating responsive and user-focused applications while continuously exploring new technologies. I value clean code, thoughtful design, and solving real-world problems through technology. I embrace challenges as opportunities to grow and believe in creating solutions that make a meaningful impact. Committed to continuous learning, I strive to contribute with creativity, adaptability, and a strong problem-solving mindset.

EDUCATION

Excel Engineering College - B.Tech in Computer Science and Business Systems.	2023- 2027
• CGPA: 8.2 /10 (Upto 6th semester)	
Einstein Matric Hr.Sec School , HSC	2021 - 2022
• Percentage: 81/100	
Sri Vasavi Matriculation School , SSLC	2019 - 2020
• Pass	

INTERNSHIP EXPERIENCE

Angular Developer Intern – Gateway Software Solutions, Coimbatore

- Developed a personal portfolio using Angular and Firebase to learn and implement reusable components,frontend and backend concepts.
- Build a full-stack application while gaining hands-on experience in modern web development.

Full-Stack Developer Intern – Inzovate Technologies pvt.ltd,Thiruchencode

- Throughout the internship,I demonstrated a strong understanding of full stack development concepts,including HTML,CSS,Javascript,responsive web design and etc...

TECH PROFICIENCY

Programming Languages: Python, Java(Basics) | **Web Technologies:** HTML, CSS, JavaScript

Frameworks : Bootstrap, Angular, React(Basics), Node.js(Basics) | **Database:** SQL, Firebase(Basics)

Tools : GitHub, VS Code, XAMPP

PROJECTS

ParkEase – Car Parking Management System

- Developed a full-stack parking management system with secure authentication, role-based access control (RBAC), and realtime slot booking functionality. Designed and implemented a responsive admin dashboard for monitoring bookings, users, and parking slot availability using MySQL and PHP.

AI Smart Agriculture System

- Developed an AI-powered crop recommendation system using machine learning models to suggest suitable crops based on soil and weather conditions. Performed data preprocessing, exploratory data analysis (EDA), and feature engineering using Pandas and NumPy to improve model performance.

CERTIFICATIONS & ACHIEVEMENTS

Full-Stack Web Dev Bootcamp – L&T EduTech | **Deep Drive in HTML5** – L&T EduTech

Computer Networks and Internet Protocol - NPTEL | **Foundations of Python by Google Career Certificates** - Cursa

Python certified - HackerRank | **Top 5 Teams in 8-hour Hackathon** - GCE (IRTT) Erode

Best Idea Award in EDC B-Plan Ideathon | Received merit Scholarship for qualifying the TART examinations
